TESTIMONIALS.

From Mr. John J. Mahon, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gillard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. James M. Thomas, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gillard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

MEETING OF NINE PER CENT. TREASURY BOND HOLDERS.

London March 24th.

Within the few last days there has appeared this simple announcement:

"Messrs. Baring Brothers and Co offer for subscription a Buenos Ayres Six per Cent. Loan for 2,049,200, at the issue price of 92½ bearing interest from the 1st prox. payable by quarterly dividend warrants. A sinking fund of 1 per cent will be applied in redeeming the bonds at par. The loan now offered is half the total authorised by the Act. of Congress for the purpose of consolidating the debt of the Buenos Ayres Government to the Bank of the Province."

Followed by these comments in the *Pall Mall Gazette*:—

"The Argentine Confederation has struggled with such persistence and success to maintain its credit abroad that it would be unfair to treat a new loan from that quarter unkindly. Yet we must not forget that the debt to the provincial bank which it is now proposed to liquidate by means of a foreign loan owes its origin entirely to these very struggles of the Government to maintain it credit abroad. The deficiency of £4,000,000 now saddled upon the province represents money advanced under one guise or another to enable the Government to pay the foreign creditor. In lending this money, or any part of it, to Buenos Ayres the British public is therefore merely releasing that Government from an embarrassing financial difficulty, and giving it the means to go on again in the same path of rigid adherence to engagements exclusive of railway guarantees, will be £17,500,000. That is taking the debt at its present amount according to the figures given in Ingall's "Foreign Stock Manual."

You will understand better the importance of the meaning of the meeting of 9 per Cent. Treasury Bondholders which took place this afternoon, when you are reminded that a new Buenos Aires loan is in the market. Of course, Baron Stern, Mr. E. H. Bailey, and many other notabilities of finance and the Stock Exchange, as well as the more innocent investing world, are deeply interested in these Treasury Bonds, and it was, perhaps, thought that the conduct of the Argentine Government in their regard might influence the market to oppose any new loan, and that it would be a good time to bring the Treasury Bond question before the public just as the new Buenos Aires 6 per Cent. was being subscribed for. It has been often said, and in these letters, that the proceedings of the Argentine Government, in respect to the proposed redemption of the Treasury Bonds, would affect this market unfavourably in regard to fresh demands from the Republic. However, the truth must be told: the London market is too large for any particular class of bondholders to have much influence. At all events, the new Buenos Aires Loan is already subscribed for, whilst the Treasury Bondholders are at their meeting in Cannon-street ana-thematising the Argentine Government.

The meeting this afternoon was well attended. There were, perhaps, forty or fifty gentlemen present, some of whom represented the all-confiding investing public, whilst a great many represented the more sophisticated corporation of stock-brokers. A little after 2 p.m. the proceedings were commenced by Mr. F. H Hall, who, after a few introductory words, stating the object of the meeting, proposed that the chair should be taken by Mr. E. H. Bailey, a large holder of 9 per Cent. Treasury Bonds. The chairman explained the position of affairs, and read article by article a copy of the law according to which the bonds were issued in 1876. The essence of the decree was in article 2, which stated that the service would be quarterly and that the sinking fund would be by tender. He quoted the opinion of the English counsel, Mr. Benjamin, that the bonds could not be paid off at par before the expiry of 25 years without the consent of the holders, and that the Government had no right to redeem except by tender. The chairman, in the course of his remarks observed, 'that the extraordinary, and, he submitted, dishonourable, proposals of the Argentine Government had sent down the Bonds from 137 to their present miserable price. (That miserable price I may observe, in parenthesis, is 110.) The chairman informed the meeting that the bondholders had sent out a protest—the clauses of which he read—to the Argentine Government, and that a bank of great influence in the Republic had seconded the terms of that protest, and that the London Stock Exchange would do the same, and that the matter had the serious attention of the Britsh Minister of Foreign Affairs. The chairman, in conclusion, stated that the present meeting represented holders to the amount of four millions of dollars, and he called upon them to resist at all hazards the decree of the Argentine Government as a want of good faith, which on the London Stock Exchange would everlastingly affect the credit of the Republic.

Mr. Daniel Bailey then proposed the

1st Resolution—'That this meeting indignantly protests against the decree proposed by the Argentine Government for the amortization of the 9 per Cent. Treasury Bonds by drawings in place of by tender as a breach of faith, and hereby calls upon the said Government to comply with the terms of the Law of October, 1876, under which the bonds were issued.

The resolution was seconded by Mr. Cohen and carried unanimously.

Mr. Madison proposed the

2nd Resolution—'That a committee should be formed under the title of the 9 per Cent. Argentine Treasury Bondholders, with power to invite the co-operation of the Council of Foreign Bondholders, and that Messrs. (to be named) should be the first members thereof.'

The resolution was seconded by Mr. Stacey and carried unanimously, and the following five names were proposed and seconded to form the committee, with power to add to their number—Mr. E. H. Bailey, Mr. Horne, Mr. Daniel Bailey, Mr. Maddison, Mr. Frank Chappell.

Mr. Chappell, seconded by Mr. Daniel Bailey, then proposed the

3d Resolution—'That copies of the foregoing resolutions be forwarded to the Argentine Minister of Finance, to Her Majesty's Minister of Foreign Affairs, to the Committee of the London Stock Exchange and to the Press.

A vote of thanks was given to the Chairman and the meeting broke up a little before 3 p.m.

I may observe on this ticklish question there are certain opinions in London that are not exclusively bondholder or Stock Exchange opinions, and tha they represent in some sense the interests of the natives of the Republic. Such opinions come from people who would laugh, for instance, at the decision of an English counsel on a question which in Buenos Aires could be discussed equally well by so many learned doctors in law, who know better the language and technical meaning of the original decree. It is always a question whether any Government which in the first instance gives the public the advantage of the difference between the price of issue of a loan and par, is morally bound to redeem its debt above par, or, in other words, to take any notice of Stock Exchange prices or speculative investments. Still, the financial and commercial world in London will never stop to consider abstract rights of that nature, and for the Argentine Government the great question is, whether it is not more profitable for the Government of a young and comparatively poor country, to waive any such abstract right, supposing it to exist, and to make the small sacrifice of the difference between par and the prices of tenders on this particular loan, than to run the risk of the enmity of the London Stock Exchange, which might result in far heavier sacrifices in the future. It would be in the last degree unwise for the Argentine Government to place any reliance on the case with which the special loan just issued by Messrs. Baring has been placed in this market.

RIO CUARTO.

(*From our own Correspondent.*)

Great was the rejoicing in Holy Week among the employees and workmen of the famous 'Fabrica de Polvora.' The man arrived from Buenos Aires, so long, so despairingly looked for, the man with the bag, the money-bag. A paymaster, with cash galore, to pay off all arrears of salaries and wages. Joy manifested in various ways: some paid their debts, more or less, and stayed where they were; some didn't, but glad to find spare cash jingling in their long empty pockets, made use of it to clear out for pastures new, for paymasters true to time are readily to be found by steady workmen. Thus Government has lost some useful men, who would have stopped by the 'fabrica' till all was finished (ready for blowing up) had they received regular weekly or monthly pay, which they always expect and generally receive from private employers of labour.

With this man came another, General de Burnes, of position not as yet well defined, but said to be the future second in command as the works, a gentleman who has had very considerable experience in the burning of powder during the war for the Union, in which he took part in a hundred engagements, including most of the great battles of the war, and has since burnt powder in the defence of the Indian frontier and also in offensive operations against mother earth in mining operations both north and south of the Equator.

To prevent unauthorised burning of powder will be one of his chief tasks at Santa Catalina. The last idea started for the prevention of explosions seems a good one—it is, to surround the 'fabrica' with wide-stretching meadows of alfalfa. This may be done easily and with much profit also, the arroyo Santa Catalina giving every facility for irrigation If these meadows be subdivided at frequent intervals by double rows of poplars meeting every wind that blows, there seems much probability that the manufacture of gunpowder may eventually be carried on in comparative safety, without more than two or three explosions per annum, which, with proper precautions, need entail no danger to life or limb.

The dispute between the contractor and the Government is said to be still unsettled, but as the gentleman in question has at last returned to Rio Cuarto, it is to be presumed that the works will be carried on.

The new market was opened on Easter Sunday with much expenditure of beer and breath, some of the latter being used in making speeches, but much more in producing music from the instruments of two military bands which were in attendance all the afternoon.

This has been a most unusually dry summer, and estancieros look forward with some apprehension to the approaching winter. However, if they can only keep the grass they have unburnt, they will have far more pasture for their animals than they had last winter, when the whole district was blackened by 'quemazones.'

There have during the last few months been numerous sales of 'ganado de cria' at very high prices, for the many new estancias forming to the south and west, but the demand for 'novillos' has been very slack, few 'apartadores' for saladeros having made their appearance.

Zamora's new saladero, on the Carcarañia, has only just commenced operations this season, but will probably do a large business next year.

THE CAPITAL WITH MANY TAILS.

The Bill to build the enchanted Capital has already passed the Upper House of the Provincial Legislature; two members only had the courage to oppose the scheme. It is more than probable it will also pass the Lower House, and then our active Governor will not lose time in signing and promulgating the joke as a law of the land. It will require a bigger man than Dr Rocha to build a city with a Governor's decree; however sheepish he may think his subjects they will not swallow this new bait; his decree will remain a dead letter in the Blue Books of the Province; his dream to create an opposition Capital to Buenos Ayres will be nothing but a dream, a foolish madcap dream.

Washington was decreed the Capital of a powerful nation ninety years ago and has not yet taken a feather out of the cap of New York.

Parana was once, by decree, the Capital of the Argentine Republic, and Parana is to-day a step below Belgrano in importance.

Dr Rocha, however, is capable of driving the country to the brink of ruin sooner than give up his hobby; it is his policy to keep the National Government in check, threatening to-day with an opposition Capital, Port, etc; to-morrow he may propose differential duties in imitation of the Parana Government, previous to Cepeda; in fact, with the sole object of keeping the National Government at bay he has contrived to prevent the federalization of the city of Buenos Aires being legalized; the compact yet requires the sanction of the Legislature which unfortunately is entirely under his control.

The plan of keeping back the sanction of the pact ceding the city to the nation is a powerful weapon which has already overthrown Minister Pizarro and is at hand to overthrow any other who may attempt to couteract Dr. Rocha's schemes.

It remains to be seen whether it suits the interests of the inhabitants of the Province of Buenos Aires to second the policy of their Governor; they gain nothing by being perpetually at loggerheads with the National authorities; the welfare of the country requires that one of the two contending powers should cease its warfare on the other; if the ratepayers are doomed to keep up the splendour of two courts, in a few years the rich province of Buenos Aires will be poorer than Jujuy.

Estancieros are now threatened with a new tax on stock, a dollar per annum on sheep and four dollars on cattle per head; the amount is not yet decided on, but the tax is declared necessary.

This is a question that interests every man in the camp, native or foreign, estanciero or trader; it is not a party question of politics but one that touches on the future welfare of the country.

The Irish estancieros should rouse themselves and bring all their influence to bear on the necessity of combined action to prevent their hard earnings being dragged from them.

Most of the Irish estancieros of the day have a greater interest in the welfare of their adopted country than those who rule its destinies: They have large property at stake, all, or nearly all, have sons born here who can boast of never having lifted a finger to injure the land of their birth; these young men are now very numerous and have hitherto kept aloof from taking any part in the destinies of their country, and yet, as a rule, they are as proud of being Argentine born as they are of being descendants of a noble race.

These young men should form a club in every district, draw up a programme setting forth that candidates for Provincial or National Chambers will in future be required to submit to the following rules:—

1st. A formal compromise to use their influence in the Legislature and always vote for such Bills as may tend directly or indirectly to diminish the expenditure of the Nation and Province.

2nd. Present a Bill, yearly until carried, abolishing the export duty on wool, hides, &c.

3rd. Federalize Province and City of B. Ayres, abolishing therewith all the unnecessary taxes.

Return members from your own districts who will bind themselves to these or similar rules, endeavour to make every honest man a member of your clubs, and kick out all who attempt trafficking on the welfare of the country.

A Swiss woman who worked for the past two years in one of the Santa Fe colonies, disguised as a man, is about to return to her native canton, owing to the accidental discovery of her true sex. She was very industrious as a man, and managed to save a little money.

EDITOR'S TABLE.

The Guadiana's mails came to hand on Sunday at last. Our latest paper from London is our namesake of the 27th ult. It is full of news and we cannot give a quarter of it. (See Supplement.). Jumbo was at last safely off and the British Public deprived of a pet over which it has made such a truly egregious fool of itself. Fancy a widow's crape toggery being sent to the 'Zoo' for Alice by a lady! Oh ye gods! Between this sort of thing, aestheticism, Jingoism etc, etc, the virility of the old country can hardly be on the increase, or even holding its own. A whole posse of the officers of the 'Gawds', Lady Burdett Coutts and many other notabilities went on board the Assyrian Monarch, to see Jumbo off!! The whole thing is, or ought to be, a caution to those whose heads are still even tolerably straight on their shoulders.

The Senegale's passengers had a most glorious day for embarkation yesterday. Mr Rom had a host of friends round him saying good-bye; in fact he was enveloped in 'amigos'. Our distinguished colleague Mr. Jose Paz, who has exchanged the editorial for the diplomatic chair, was also fairly packed in friends on his way to embark. We wish him as good success in his new career as he has had with the *Prensa*—the most temperate, high-toned and independent of all the native press.

There was another rush to the Exhibition on Sunday, and at certain hours the crowd at the ticket offices reminded one of the 'queue' at a Paris theatre on a 'first night'. The pupils of one of the public girls' schools were there, and did n't they enjoy the fun?

Palermo was crowded on Sunday, not only with all the wealth and fashion which, as a matter of course came very late, but likewise with numbers of people who do not belong to the high life, and went early in the day to enjoy a walk in, the gardens, which are nicely laid out and beautifully kept. The Zoological collection has been considerably increased lately, and a visit occasionally to these animals is always interesting and instructive. Amongst the distinguished visitors was General Sarmiento, who looks well and hearty; he takes great interest in the gardens. Let us remember that we owe that pleasureable resort to this eminent statesman. There are but few cities in Europe that can boast of such a charming paseo.

Another theatre burnt down! Advices from France bring the sad news of the burning of the Marseilles Theatre on the 17th ult., several of the actors burnt alive. No wonder that so many refuse to go to Colon this season. Where is the iron curtain?

The members of the Gymnasium and Fencing Club are wanted to attend at the club-room, No. 435 Calle Rivadavia, at 8 p.m. Each member has the privilege of three invitation cards for friends. The affair promises to be very brilliant, and we advise our fencing friends not to miss this grand passage of arms.

L'Africaine was splendidly performed at the Colon on Sunday night to a crowded and appreciative audience, but it must be very trying for these artists to be constantly at work almost without a day's rest. At the end of this month the supplementary artists are expected from Europe, then with the new cooks and new dishes, perhaps the appetites of the habitués will be sharpened and the 'menu' provided be more relished. One gets tired with 'toujours perdrix'.

The Guadiana brings news that Dr McCabe, Catholic Archbishop of Dublin, has been raised to the Cardinalate. Lord O'Hagan organised a Committee in Dublin to raise a sum of money for Cardinal McCabe's expenses in Rome, and for his increased establishment in Rutland-square. Two thousand pounds were at once guaranteed.

We feel great pleasure in welcoming to the metropolis our esteemed friend and correspondent Mr William Perkins of Rosario, who arrived here yesterday morning on a visit to the Exhibition.

The *Patria Argentina*, which has a most inaccountable weakness for criminal celebrities, published yesterday a portrait of Ensign Caravajal, the murderer of poor young Betancourt at Montevideo, and who gave rise indirectly to the Volpi and Patroni affair. He is a villainous looking, low-browed, scowling wretch, with ferocity stamped on every line of his face.

A terrible affair is reported by the same paper from Puerto Roca, 15 leagues from the Chubut Colony. It appears that the supplies for the Sub-Delegation there ran short, and the place was not even sighted by a Government vessel for a long time. At last the water also gave out, and the party, ten in number, started to walk to the Colony. They suffered fearfully by the way, owing to the drought having dried up all the springs. Two of the wayfarers died before reaching the Welsh Colony.

The Rio papers are indulging in pouderous but temperate articles about the boundary question in Misiones with this country. When we remember all the fiery bosh written here and in Chile for twenty years on the Limits Question, which was finally settled so quietly by Nature and the American Minister, we cannot but think that our colleagues in Rio and here are simply wasting their pens, ink, time, paper and brains in boring the public about Misiones. When the time comes, Nature and the American Minister will be quite ready to do us another good turn and lay the Misiones ghost as they did the Patagonian.

Invitations for the grand charity ball at the Progreso Club on the 6th prox. were issued yesterday. The tickets are ten pats each. We understand that 1,500 invitations have been issued to the High Life of the metropolis.

The tickets for the Exhibition Lottery will be only $25 m|c each, and for this small sum there is a chance of winning one of several prizes in cash, from $100,000 to $100, besides valuable articles presented by exhibitors. This Lottery is certain to prove a great success.

The Provincial Police has ordered a general 'razzia' on all tramps and vagabonds in the camp, and the cream of the joke is that they are all to be sent to this city. Here is certainly a Grecian gift! It would really seem but right that the province should keep its own vagabonds in its own territory and not pour them into the capital of the Republic, which has already more than a fair share of birds of the same feather.

We were favoured yesterday with a copy of Mr Coghlan's chart of the harbour of Ensenada, with all the soundings, a most interesting map under present circumstances.

Sad news from Madrid, but likely enough to be untrue, as our Iberian colleagues like 'bolas' enormously, and publish lots of them. It is said that Gounod, the great composer, has gone raving mad.

The National gunboat Constitucion sails to-day for San Blas Bay, with a corps of marine surveyors on board, who will inspect the port for a naval station.

Should all the members of the Municipality look ineffably seedy this morning, let not their friends feel surprised. The City Fathers were up all night fighting like game-cocks over the Colon Theatre business. How the affair will end no man can tell. The fair section of High Life are in a nervous flutter lest the Lord Mayor shut the theatre summarily on Thursday next, when the lease will expire. Most of the Fathers complain that there is no truffled turkey, lobster, and champagne for supper on the occasion of these nightly sittings.

The *Norte* denounces a Volpi and Patroni case at Arrecifes, where several men who were imprisoned on suspicion of having murdered the late Mr. Furtado de Castro there, were beaten, stuck with swords and put into the 'cepo,' to make them confess the crime, of which we may add, the Criminal Judge of the district has declared them completely innocent!

Dr. Golfarini has a sad and most extraordinary case in hands just now—a girl of 13 who barks, but does not speak, tears bones like a dog, but will not eat at table, and refuses to lie in bed, but sleeps on the floor coiled up like a dog; all her instincts are those of the canine race.

Signor Della Cha is going to try match-making (Dont be under any delusion ladies; it is wax-match-making) at Barracas. Mr Della Cha is an Italian and a match manufacturer on a large scale in his native land. This may give him a chance, but foreign competition has hitherto danced on all attempts at profitable match makisg in this country.

The newest fad in fashionable Paris life is for the dancers to sing their own music, dispensing with an orchestra. Nice nonsense.

Mrs Frers, mother-in-law of the Dutch Consul, Mr William Paats, died on Sunday night. The funeral leaves Calle Callao, No. 271 this morning at 9 a.m., for the British Cemetery.

Don Emilio Castro, a young law student, won the 20,000 pats in the San Luis Lottery. We hope he will try and keep the cash and not squander it, asboys are too prone to do.

We had another letter from Mr. Henry Kelly yesterday about the new provincial capital and the threatened new tax per head on sheep and cows. If estancieros are not stung into action by this new raid on their pockets, then red hot iron can't rouse them. Where is the old Rural Society in presence of this fresh tax?

There was a High Life wedding in Flores on Saturday night, the happy pair being Dn Manuel Irigoyen, son of the Minister of the Interior, and Miss Fernandez Blanco. Although only the two families were present, there was a very large party assembled. The young couple are passing the honeymoon at the Minister's estancia, La Choza. We sincerely wish them a long life together and every happiness.

The Grau dramatic company is making a colossal fortune now at the Tacon Theatre in Havana. Entrada $50 and other prices relatively even higher.

The latest about Volpi and Patroni is that they were tortured, not to make them confess the murder of Betancourt, but a plot to assassinate Santos and raise a mutiny in the 3rd Chasseurs.

Governor Roach is expected back to-day, but wont resume the Government, whip till next week, as he has to write out his Message.

ON 'CHANGE.

April 24th

Patacons	25.—
Cedulas A	101
Do E	84½
National Bank Shares	108½

There was an active demand to-day for Cedulas and Series E advanced ½; the stock is not to say very abundant, particularly Series A, and brokers pass the day shouting out at the ring "compro Series A", without getting a single Cedula when the bell rings.

Telegrams were received to-day from Antwerp giving news of the wool auction, which shows that the cable is again working; it appears that the advices about the auction are not to say over favorable, and wool is rather weaker in Europe.

The great news on 'Change unconnected with the Bank Share speculation, which absorbs so much of the market attention, is that a French firm has just purchased 3½ square leagues of land near Dolores whereon to start a special breeding establishment for the finest French rams. This is a new departure in the sheepfarming line, and doubtless will prove a great success.

National Bank Shares opened this morning at 108 for end of month, dipped to 107½ and then marched up to 109, when a heavy holder offered to sell which brought prices back to 108½ at which rate they closed buyers; sales for end of month 3,250, and for end of May 2,700, opening at 110 flattening down to 109½ and closing up at 110½ buyers.

The R.M.S. Neva on board which are so many River Plate friends, arrived at St Vincent on 19th inst.

To-night a special meeting of the Municipality is called to consider the great question of the Colon Theatre; the question is a very serious one as the Colon shareholders refuse to sell the building, and the Municipality, the owner of this site, insists on the purchase, the matter will probably be decided to-night; it looks very like a great lawsuit.

The Bolsa opened blythe this morning, and National Bank Shares, the bone and sinew of the ring, ruled slightly better. There is really no mistaking the fact that the whole Bolsa and the whole ring is for the rise, and the stock is checked by the fear of the Bohemian King coming into the room at afterhours and flooring the bulls by selling the shares in thousands. To most people it appears probable that the market is on the eve of a new departure, and that the great outside bear who has sold some 40,000 shares will now begin to buy for the end of the month. Many parties expected that the speculators for a fall would begin to-day to sell thousands for end of May, and at such low rates as to bring down prices for the end of the month, but no such speculation was attempted.

Mr W Perkins, of Rosario, was welcomed on 'Change. Mr Perkins is a great favorite in this market, and his views on Argentine questions as expressed in his letters signed W. P. are shared by most of our readers.

This was a regular mole head day, not only on account of the large number of passengers going to Europe by the French mail, but also on account of the number of English residents leaving for Montevideo to catch the Aconcagua for Europe to-morrow. Mr and Mrs Runciman and Miss Spring, Mr Roger, Mr Cadmus, Mr W Samson, and Mr Gaval were accompanied by crowds of friends. We hope to see them all back next spring. Mr Connor, of Montevideo, also left this afternoon.

The Exhibition yesterday was more crowded than ever; the tramways did a roaring business and were totally insufficient to carry all the passengers. Many people had to walk out to the Once, having passed 40 tram cars every one of which was crowded to overflowing.

The drought in the camp is pronounced, and is alarming the farmers and estancieros; the state of the inside camp is said to be worse than two years ago, and already people are beginning to drive their stock out. For the present there is abundance for sheep, but for cows and mares the inside camps are no longer serviceable, and the sooner the cows are driven outside the better. In fact we have now such a broad area of fine outside camp settled upon, that there is no longer any excuse for an estanciero to lose a single cow. The magnificent Venado Tuerto lands with grass to the horses' knees, can support this winter all the cows from the Lujan river to the San Pedro, whilst the Lincoln camps, which are now so generally wire fenced, can take up all the cows of our inside western camps. Even in the South they say the 'seca' is felt. This is about the worst of all months for a drought, as the winter frosts set in when the camps are as bare as the Flores Road. We note in the papers received to-day by the Guadiana, that they have a great drought in Australia, and it would be well therefore for the farmers to take timely warning and look out for fresh lands for their flocks, before it becomes too late. In the far South, the camps are in splendid condition and some fine estancia dawn near the Tres Arroyos are offering to rent at 20,000 m|c per league per annum, the distance of course is great but the land is good and the rent cheap. The fine estancia Manantiales, 7 square leagues, is to rent, also another very fine property some 3 to 4 leagues of land, on the Napostá, and we believe Mr Glaraz of the European Hotel, has the renting of this fine property.

We give in our leading columns a full report of the meeting held in London by the Treasury note 9 per cent holders. Our special correspondent attended the meeting in person, and the report we give is fuller than any given in the English papers.

Letters received from Glasgow say that Argentine lands are very difficult of sale, and it is almost useless offering them; a very large land business with the most powerful support has not yet been concluded in London, and still hangs fire.

Mr Thomas Duggan who has arrived in from Lincoln, was welcomed on Change; he reports the camps in bad condition for the want of rain, and many farmers moving their flocks already. If the rain comes, however, within 10 days, all will be right, although on one night last week they had a tremendous frost, and the whole country was white.

Both branches of the Prov. Bank in San Jose de Flores, and in South Barracas are now opened, and doing business, as appears by notice. They will doubtless prove of great convenience to the neighbours.

Mr Roger of the leading English firm of Best Bros. took leave of his friends on Change to-day; he sails in the Aconcagua for Europe, and will be back in the spring.

The Umberto left Genoa on Saturday, direct for the Plate with 600 immigrants on board, rather good news this for the Plate.

The sales at the ring were as follows:—

Gold—
No operations.
Cedulas—
For April 30th E 23,000 at 84½-½
Nat. Bank Shares—
For April 30th 3,250 shares 108-107½-½-½ to 108½-109-108½
For May 31st 2,700 shares 110-109½-½-110½ to 110½-½

Sales, 5,950.

Mr William Samson agent of the Allan line of steamers, took leave of his friends on Change, he goes to-night to Montevideo to catch the Aconcagua for Europe.

Don Carlos Casares was at the Bank to-day looking much improved.

Mr Moog, the well known and popular German architect, has drawn up the plans of the new Lanus market; they are much spoken of and praised.

Many important items of news given by the *Diario* were talked of on Change; the very important sugar news from the provinces, and the delivery of the new National Bonds in payment to the Provincial Bank, give a great editorial victory to our colleague, which is without doubt one of the most newsy and best edited of our morning papers,

Mr Larmour of Belfast, who has arrived out on a visit to this country, was welcomed on Change, he will proceed to the West Coast. It is pleasant to see our Belfast friends on the move.

The Hipparchus sails for New York to-morrow, and passengers will leave the Central Station for the Boca at 2 p.m.

The Plato will sail on 1st; she has already engaged—

850 bales
5000 salted hides
1000 dry hides

Freights by steamer are down, and Lamport & Holt's steamers are now engaging at 17s 6d in full.

They say that the str. Maipu would have gone up the river with the President much faster, but for the bad quality of the coal which was bought in Europe and costs the Government here 9½ pats; market price here for the very best coal 8 pats.

It is reported that to-day the Minister of Hacienda pays over to the Provincial Bank 9,700,000 new National Bonds to liquidate the debt due by the Government to the Bank. The Government now only owes for the stamped specie notes in circulation, and will itself redeem those notes without invoking the aid of the Bank.

Gov. Rocha will be back in town this morning, his trip to the camp will, we trust, be productive of much good, and lead to many useful reforms in camp affairs.

Mr Rom left to-day for Europe, he takes instructions to negotiate in London a large amount of securities, also lands for sale; also some very important commissions from the Provinces; we wish him the very best success.

Exchange ruled to-day at the following rates—

On Paris 5.16-17
Antwerp 5.18
Genoa 5.20
Hamburg 4.19-20 Reichsmark
London 49½

Nat. Bank Shares this afternoon ruled firm and prices rose to 109¼. The Bohemian King did not put in an appearance as was apprehended and hence the market rose; prices closed upward, 109½ for end of month buyers, and 111½ for end of May. Market looks for a rise.

The sales at afterhours were—

Gold—
Nothing done.
Cedulas—
For April 30th E 10,000 84½
National Bank Shares—
For April 30th 2,000 shares at 109-¼

Captain Rowsell, commander of the Guadiana, was welcomed on 'Change; he saw the Mondego at St. Vincent, and the Trent must have been near the Douro when lost, as she left Vigo on 30th. Captain Rowsell only heard of loss of Douro when he arrived at Montevideo.

The report of the Directors of the Anglo-Argentine Tramways Co. (Limited) for 1881 shows an available balance of £14,829, inclusive of £479 brought forward. An interim dividend of 2s 6d per share has already been paid, and it is now proposed to make a further distribution of 3s 6d per share, tax free. The Directors have further determined to credit the suspense account with £2,600, thus leaving a balance of £329 to be carried to the current year's accounts.

A special meeting of Hacendados was held to-day at the Exhibition; in a few days the Cattle Show opens, and the premises have been very conveniently arranged.

The Rioja Lottery is now announced; the impression is that there are far too many lotteries now going on in this country.

To-morrow General Roca resumes his post as President of the Republic; during his absence the Vice President, Sr Madero, has been most active in despatching business.

The following particulars respecting the gigantic stock broking failure in Dublin may possibly interest this market. We hear the Archbishop of Dublin lost £30,000 stg. by this failure:—

"Yesterday Judge Walsh had before him a case of a Dublin stock broker who is endeavouring to carry a private arrangement with his creditors, offering 2s in the pound. Mr George Perry (instructed by Messrs Casey and Clay) appeared for the arranging debtor. Mr Carton, Q.C. (instructed by Messrs D and T Fitzgerald) appeared for the Hibernian Bank. Mr Hogan appeared for several creditors who opposed the offer of composition as unreasonable, and de-ired a public investigation of the matter in bankruptcy. Judge Walsh said that the case promised to be a protracted one, and he would fix next Monday for the hearing of it. Mr Hogan said it was impossible for him to be ready so early. On the previous evening a special account was furnished by the arranging debtor relating to transactions amounting to over £500,000, and containing several thousand items. An idea of the case might be formed from the fact that the arranging debtor's bank account with the Hibernian Bank in 1881 totted up to £1,047,000 stg. The hearing of the case was adjourned until Thursday in next week."

"In the annual report to the New York Chamber of Commerce upon the wool trade of the United States, we read that the year 1881 was a disappointing one for all who handled the raw material, but a satisactory one to its consumers. The stocks carried over from the previous year were large, both of foreign and of domestic, but this did not deter buyers from keen competition at the places of growth. Cheap money and the prospects of good trade were the inducements; but a bad harvest and dear money soon checked the export activity. Losses were made both in old and new stocks, which were steadily pressed for sale throughout the year, so that there was at the close of the year an average decline of 10 c|o on all fine wools. On the other hand, manufacturers did very well. The raw material was cheap, and the consumption of their products large, at moderate profits. There was no excess of production. The stock of goods in first hands at the close of the year, the report goes on to say, "is probably smaller than ever known in the history of the woollen industry of this country. It is, perhaps, safe to say that at length the demand equals the supply, and that there is now no excess of woollen machinery. Stocks of clothing wools are also moderate, and the country continues pre-eminently prosperous, and capable of a greater consumption than ever of manufactured products." Appended to the report is the following estimate of the supply and consumption of the raw material during the year:

Stock of wool in all markets,

Jan. 1st, 1881	55,347,370 lbs
Foreign imported in 1881	53,910,757
Domestic clip in 1881	290,000,000
Total supply for 1881	398,358,127
Deduct stock on hand, Jan. 1st, 1882	46,273,900
Consumption in 1881	352,084,227
Of which we produced	290,000,000
And imported, foreign	62,084,227

THE STANDARD—Printed and published every morning at the *Standard* Printing Office, 154 Calle Piedad.

The Guadiana's Mails

London, March 27th

From Cairo we learn that the President of the Chamber of Deputies and the members went to the Palace on Saturday and took leave of the Khedive on the close of the Session. Our Alexandria Correspondent telegraphs that want of discipline is said to prevail in the Egyptian army. A lieutenant in an infantry regiment has just murdered a girl and mutilated her body.

The Grand Duke Vladimir arrived yesterday at Vienna, and was received at the railway station by the Emperor, who cordially greeted him and the Grand Duchess.

In the French Chamber on Saturday, the Bill confirming the Treaty with Belgium was passed by a majority of three hundred and ninety-nine to sixty-one. Our Paris Correspondent, after examinating the tariffs of the two countries, states that the French principle has been, 'Get as much and give as little as you can,' and adds that this Treaty is an unmistakeable step backwards.

A sad disaster happened to the Honfleur life boat yesterday morning. Having rescued one crew, it went off to save the crew of a sloop. When they had been taken on board the life boat was swamped and the nineteen occupants were drowned, the life-boat being empty when it appeared after the wave which overwhelmed it.

Signor Magliani, the Italian Minister of Finance, presented his Budget to the Chamber of Deputies on Saturday. He stated that it would be his policy to reduce the Floating Debt as much as possible, and explained the rules to be observed for continuing the reform of the system of taxation, especially in regard to the taxes on land and on articles of consumption. He gave an assurance that the forced currency would be abolished as soon as the Treasury had obtained a sufficient metallic Reserve to withdraw the paper money from circulation.

The remains of the poet Longfellow were interred yesterday in Mount Auburn Cemetery, Cambridge, after religious services in his residence and in the chapel of Harvard College. The entire town was in mourning. Many telegrams of condolence have been received by the family from all parts of the world.

The Prince and Princess of Wales visited the Crystal Palace on Saturday evening, and were conducted by the Chairman and Secretary of the Company to the principal points of interest in connection with the Electrical Exhibition. There was a very large attendance of visitors.

The sons of the Prince of Wales have concluded their visit to Egypt, and the Bacchante sailed early yesterday morning for Jaffa.

Mr and Mrs Gladstone accompanied the Princess Louise on a visit to Harrow School on Saturday. Mr Gladstone, addressing the boys, told them that although not of Harrow, he had served under three Prime Ministers who had beed educated there. He urged them to make the most of the precious opportunities they now enjoyed.

Lord Derby in opening a new Hospital at Bury, on Saturday, urged their claims and utility. Some public bodies and friendly societies took part in the opening ceremony of an Institution which has cost thirteen thousand pounds.

Mr W. H. Smith, MP., presided at the anniversary dinner of the Artists' Benevolent Fund on Saturday, at which subscriptions were announced to the amount of eight hundred pounds, including one hundred guineas from the Queen.

At a meeting of the Board of the Hospital Saturday Fund on Saturday it was stated that the hospitals had refused to allow the Fund to be represented on their Boards of Management. A resolution was passed, appointing Mr Morley, M.P., and others to endeavour to arrive at an understanding with the hospitals and dispensaries on the subject.

Colonel Burnaby returned to London on Saturday and has made a statement, which we publish in another column, respecting his experiences during his balloon adventure last week.

Jumbo sailed in the Assyrian Monarch for New York on Saturday. The vessel was delayed in the Downs by the rough weather, but the elephant behaved himself so well that some of his iron shackles were taken off.

Further outrages are reported from Ireland. Mr Heffernan, the postmaster of Dromkeen, has been waylaid and his skull fractured so badly that his life is in danger. The house of a farmer named Donelan, near Kilmihill, has been fired into. The tenants at Newgrove have been visited by an armed party, who made them take an oath not to pay their rents. Our Dublin Correspondent telegraphs that the young farmer Dwyer, who was shot by a constable when he formed one of a party which was attacking a house at Thurles, is in a dying state.

Galway was last week the scene of a military conflict, arising out of a feud of long standing between the Connaught Rangers and the 84th Regiment. The disturbance began on Thursday evening in Eyre-square but it was promptly stopped by a strong military picquet. On Friday evening the fighting was renewed, and on a picquet interfering it was attacked, and a sharp fight ensued, resulting in injuries to several men. All the troops in garrison are now confined to barracks after seven in the evening, and Galway had last night assumed its usual quietness.

A friendly suit has been commenced against Mr Bradlaugh with respect to his recently taking the oath and voting in defiance of the Resolution of the House. Copies of the pleadings and demurrer have been sent to the Speaker.

A severe gale prevailed over the southern and western districts of England on Saturday night and yesterday morning, causing considerable destruction of property, while loss of life is reported from Devonshire and Brighton.

Lord Ellesmere won the Liverpool Spring Cup on Saturday with Wallenstein, and the Duke of Hamilton the Sefton Steeple-chase with Eau de Vie. At the Alexandra Park Meeting, Major Stapylton took the North Metropolitan Plate with Scamramouch.

Edith Watson, stated to be the wife of a man calling himself Captain Beauchamp, and known by other names, who is now in custody in Brussels, and is suspected of being concerned in the Hatton-garden Post-office robbery, was brought up, on remand, at the Marylebone Police-court on Saturday, on the charge of receiving property knowing that it was stolen. Further evidence was given in support of the charge, and the Prisoner was committed for trial.

A favourable tendency was apparent, for the most part, in the Stock Markets on Saturday. Consols for money were steady at 101⅛, ⅛, but for the account receded 1-16, to 101 3-16 5 16. In Home Railways the movements, though not generally important, were in an upward direction, Brighton, Chatham, and Great Western having principally engaged attention. American descriptions showed a further recovery. Foreign Government Securities were not particularly active the only change in 'International' Bonds being a slight decline in Spanish. The Stock Exchange settlement commences to morrow morning.

RUSSIA AND GERMANY.

The following telegram from the Emperor Alexander to the Emperor William was officially published at St Petersburg yesterday :—

The Empress and myself are present with our whole heart and mind at your birthday, and we take part in the demonstration of affection and respect which surround you. May God preserve for many years to come a life crowned with so much glory for the welfare of Germany, the peace of Europe, and the strengthening of the ties of friendship between ourselves and our empires !

Another telegram states that, in proposing the health of the Emperor of Germany at the State banquet given yesterday evening at the Gatchina Palace, the Emperor Alexander used the following words :—'I drink to the health of the Emperor William, my illustrious friend and ally.'

The Berlin correspondent of the *Standard* says that at the reception of the Ambassadors on Wednesday the Emperor was particularly gracious to the diplomatic representative of Russia, M. de Saburoff, and that the Russian Embassy was illuminated with unusual brilliancy. He adds, however, that 'dispassionate judges attach little or no value to the peace manifestations of the Czar and his Government, in face of the fact that the most wanton disturber of the peace is not only not banished, but is actually feted by Russian officers', and that, 'cordial as have been the compliments interchanged recently between the Berlin and St Petersburg Courts, the relations between the two Governments, and between the two nations at large, still continue to be characterized by profound distrust, and, indeed, by unconcealed mutual antipathy.'

THE CONVICT LAMSON.

In reply to an application made on behalf of Mr Lamson's wife, father, and mother for leave to see the condemned man in some apartment in the prison, in the presence of warders, but without the interposition of a double row of iron bars, the Home Secretary has declined to accede to the request. Sir William Harcourt writes that he finds on inquiry that the least possible restriction is placed upon the interviews between Dr Lamson and his family, and regrets that no further indulgence can be granted in this respect.' It is stated that in the Lefroy and other cases the relations of the convicts were permitted to converse with them without the interposition of the double row of iron bars.

The Central News says the solicitor for the convict still receives numerous communications in regard to the case, the evidence as to the convict's habit of taking morphia accumulating rapidly. Many chemists also have assailed the tests of Drs. Stevenson and Dupré for the detection of aconitine. An eminent London professor of chemistry has made a statement to the effect that the taste test was wrongfully applied, and should have been made upon some person who was in total ignorance of what was being administered, and not by the doctors alone.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
